PROFESSIONAL SUMMARY

Passionate and detail-oriented Frontend Web Developer and Computer Science student with a strong foundation in building scalable, high-performance, and responsive web applications. Proficient in React.js, Next.js, TypeScript, Tailwind CSS, JavaScript (ES6+), and Bootstrap. Experienced in state management, responsive UI design, dynamic API integration, and clean component architecture.

TECHNICAL SKILLS

- **Frontend Frameworks & Libraries:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Styling & UI Tools:** Tailwind CSS, Bootstrap, Modern Component Design, Responsive Web Design
- **Software Engineering & Concepts:** Object-Oriented Programming (OOP), Problem Solving, REST APIs, State Management, Data Structures
- **Tools & Other Technologies:** Git, C#, SQL Server, Linux Basics

FEATURED FRONTEND PROJECTS

1. Enterprise E-Commerce Web Application

Tech Stack: Next.js, TypeScript, Tailwind CSS, Modern Component Design

- Architected a fully responsive, type-safe e-commerce web platform leveraging Next.js, TypeScript, and Tailwind CSS for modern UI styling.
- Integrated optimized frontend routing mechanisms, dynamic rendering, state-driven shopping cart workflows, and secure client-data handling.
- Focused on high performance, SEO optimization, and seamless user experience across all device screens.

2. Mverse — Social Media Web Application

Tech Stack: React.js, JavaScript ES6+, CSS3 / HTML5

Live: [mverse-social-media-app.vercel.app](#)

- Developed an interactive social media web application using React.js with functional components and modern hooks.
- Implemented state management, responsive user feeds, dynamic user interaction components, and API integration for seamless content loading.

3. Multi-Page Responsive Web Applications Suite

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript

- Built a collection of 4 interactive multi-page web interfaces using pure HTML5, modern CSS3 styling, JavaScript, and the Bootstrap framework.
- Ensured 100% cross-browser compatibility and mobile-first responsiveness across various viewport sizes.

Clarity — Digital Solutions Landing Page | DJI Mavic 4 Pro — Product Landing Page | FitCore Gym — Gym Landing Page | The UX Review — UX Magazine Website

OTHER TECHNICAL PROJECTS

ContactHub — Smart Contact Manager (Web App)

Tech Stack: HTML5, Bootstrap 5.3, JavaScript

Live: [mahmoudahmed992005.github.io/CONTACT-HUB-DASHBOARD](#)

- Built an interactive contact management dashboard with live search, favorites, emergency contacts, dynamic stats, and an add-contact modal driven by JavaScript.

Modaber — Smart Money Management (Web App)

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript

Live: mahmoudahmed992005.github.io/Modaber

- Built an interactive personal finance dashboard covering balances, transactions, budgets, monthly bills, and weekly cash flow in a clean FinTech UI.

Smart Patient-Guardian Sensor Monitoring System

Tech Stack: C#, Software Architecture, Logic Controllers

- Completed a healthcare software project implementing real-time sensor processing modules to track patient vitals and trigger emergency alerts to guardians.

Cinema Ticket Booking System

Tech Stack: C#, Microsoft SQL Server, OOP Principles

- Designed a modular backend application in C# and SQL Server applying clean OOP principles to manage relational transactional databases and ticket reservations.

EDUCATION & TRAINING

- Bachelor of Computer Science / Information Technology — Faculty of Computers and Information, Luxor University (Expected 2028)
- Advanced Frontend Web Development Track — Route Academy (2025 – 2026): Intensive track building advanced core competencies in HTML5, CSS3, JavaScript architecture, React/Next.js workflows, and modern UI engineering.
